Professional Summary

Electronics and Communication Engineering graduate with hands-on experience in IoT-based systems, digital signal processing, and web development. Skilled in Python, JavaScript, HTML, CSS, SQL, and VS Code. Demonstrated leadership as a project team lead and experienced in developing embedded and software-based solutions.

Education

B.Tech, Electronics and Communication Engineering – Malla Reddy College of Engineering, Hyderabad (2020–2024)

CGPA: 6.31

Intermediate – Vidya Vikas Jr College, Bodhan (2018–2020)

Percentage: 45.8%

SSC – Zilla Parishad High School, Perkit (2018)

CGPA: 6.5

Technical Skills

Programming: Python, JavaScript

Web Development: HTML, CSS

Database: SQL

Tools: VS Code

Projects

Underground Cable Fault Identification over IoT Platform (Mar 2024 – Jun 2024)

- Developed an Arduino UNO-based system to detect and locate underground cable faults.
- Implemented embedded-system techniques for fault monitoring and diagnostics.

Robust Digital Watermarking for Video using SVD and DWT Techniques (Apr 2023 – May 2023)

- Applied Singular Value Decomposition (SVD) and Discrete Wavelet Transform (DWT) for video watermarking.
- Enhanced multimedia security and copyright protection through robust watermark embedding.

Personal Portfolio Website (Jun 2025)

- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Ensured cross-device compatibility and modern user experience.

Leadership Experience

Project Team Lead – Malla Reddy College of Engineering (Apr 2023 – Jun 2024)

- Coordinated project activities, delegated tasks, and ensured timely project completion.

Soft Skills

Communication • Teamwork • Problem Solving • Time Management • Leadership
